SEO Hosting can save you thousands of dollars in web design, hosting and domain name costs!

SEO Hosting is a monthly package which includes everything a small business needs to put their business online for only \$29.95 a month plus a small initial setup fee! SEO Hosting eliminates the need for the upfront costs of web design by utilizing Ready made websites which are customised to suit your business image. Best of all, SEO Hosting systems are not just ordinary websites. We give you control over the editing and administration of your website. The user friendly system allows you to instantly update your website through your Internet browser wherever and whenever you need to.

The website monthly fee includes everything a professional website needs - domain name, hosting, submission to search engines and a professional website that is easily updatable. Compare this to the price of yearly hosting and domain registration alone and you will see why we believe that this is the best website price you will find anywhere in Australia! The combination of features and price make our websites unbeatable!

For \$29.95 a month includes:

- Choice of Ready Made Web Sites
- Domain name (.com or .com.au)
- Web site Hosting
- Easy Web Site Editing - no technical skills required
- Search Engine Optimised website
- Submission to Search Engines
- Monthly Report on website
